https: Domain Reverse Proxy → 🕎 -**Better** INTELLIGENCE USE CRYPTOCURRENCY WHENEVER POSSIBLE. IDEALLY YOU WOULD KEEP ALL MONEY IN MONERO. PAYING WITH MONERO DIRECTLY IS BEST BUT NOT MANY HOSTS ACCEP MONERO. NEXT BEST THING WOULD BE TO CONVERT FROM MONERO TO BITCOIN (NEW WALLET/ADDRESS) USING SOMETHING LIKE https://xchange.me

THE BEST REVERSE PROXY WOULD BE ONE YOU SETUP YOURSELF ON A SECOND SERVER FROM ANOTHER COMPANY IN A DIFFERENT COUNTRY. YOU CAN USE NGINX WEB SERVER SOFTWARE TO SETUP THE REVERSE PROXY. REVERSE PROXY SETUS NOT NEEDED FOR FASTFLUX HOSTING.

WHATEVER COUNTRY YOUR SERVERS ARE LOCATED IN.

WHATEVER COUNTRY YOUR SERVERS ARE LOCATED IN, IT MAY BE A GOOD IDEA TO BLOCK ALL TRAFFIC AND USERS FROM THAT COUNTRY FROM BEING ABLE TO VISIT YOUR WEBSITE. THIS WILL GIVE LOCAL HOST AND LOCAL GOVERNMENT LITTLE REASON TO CARE IF YOUR SITE HAS NO EFFECT ON THEIR OWN COUNTRY OR CITIZENS

MAKE SURE YOU CANNOT SEE YOUR HIDDEN BACKEND SERVER IP WHEN USING A TOOL LIKE HTTPS://DNSDUMPSTER.COM

VPN

IF YOU WANT TO USE CLOUDFLARE, YOU BETTER HAVE A BULLETPROOF BACKEND SERVER THAT IS DMCA PROOF. CLOUDFLARE IS EXCELLENT IN ACTING AS A CDN AND WEB APPLICATION FIREWALL WHILE PROVIDING GOOD AND AFFORDABLE DDOS PROTECTION THOUGH FASTFLUX SERVICES ARE USUALLY PROVIDED BY RUSSIAN OR EASTERN EUROPEAN CYBER CRIMINALS. I WOULD DEFINITELY NOT PROVIDE REAL INFORMATION AND I WOULD ONLY PAY VIA CRYPTO OR OTHER TRUSTED METHOD. NOT CREDIT CARD!

YOU MAY WANT TO LOOK INTO SOFTWARE LIKE HTTPS://CENTMINMOD.COM WHICH IS A LIGHTWEIGHT WAY TO HELP YOU MANAGE YOUR SERVER TO ENSURE SECURITY AND RELIABILITY

CONTACT POTENTIAL HOSTS BEFORE PURCHASE AND ASK THEM HOW THEY WOULD HANDLE COMPLAINTS, SUCH AS DMCA NOTICES, AGAINST YOUR SERVER

YOU NEED TO SET UP YOUR BACKEND SERVER TO NOT ACCEPT VISITORS COMING DIRECTLY THROUGH VIA IP ADDRESS. YOU MAY WANT TO CONSIDER BLOCKING MOST OF THE WORLD FROM DIRECTLY ACCESSING YOUR BACKEND SERVER AND ONLY ALLOW CONNECTIONS COMING FROM YOU, YOUR VPN, OR YOUR REVERSE PROXY. THIS WILL PREVENT PEOPLE FROM FINDING THE BACKEND SERVER USEING SERVICES LIKE CENSYS.IO

USE FAKE BUT BELIEVABLE INFORMATION WHEN REGISTERING ANY OF THESE COMPANIES AND SERVICES IF YOU DON'T PLAN TO REGISTER AN ANONYMOUS CORPORATION. AVOID ANY HOST THAT ASK FOR AN ID VERIFICATION
